

CONFERENCE PROGRAMME 11-12 October 2019

Professor Jill Maddison

BVSc, DipVetClinStud, PhD,
FACVSc, SFHEA, MRCVS
Professor of General Practice
Royal Veterinary College

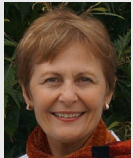

- Assessing and managing the vomiting patient - how useful are antiemetic and antiulcer drugs?
- A logical approach to the anaemic or bleeding patient
- First do no harm: Adverse drug reactions - why they occur and how to avoid (some of) them
- Interpreting clinical pathology tests in cats - how and why are they different from dogs?

Professor David Church

BVSc, PhD, MACVSc, FHEA, MRCVS
Deputy Principal and Acting Vice
Principal (Clinical Affairs)
Royal Veterinary College

- Medical Mystery Tour!
- A logical approach to the polydipsic patient
- Interpreting the numbers: What do changes in calcium, sodium or potassium really mean?
- The difficult diabetic - what makes them difficult and what can you do?

Dr Bryden Stanley

BVMS, MVETSc, MACVSc, DACVS
Associate Professor
Michigan State University

- Wound disasters - how to manage nonhealing wounds or better still - avoid them!
- The dos and don'ts of gastrointestinal surgery
- Sticks and stones - optimal management of penetrating wounds
- Ten tops tips to becoming a better surgeon

Dr Alan Taylor

BSc, BSc(Open)(Hons), BVSc(Hons), Cert
VA, Dip ECVA, MRCVS
Board Certified Specialist
Peace Avenue Veterinary Clinic

- Anaesthetising cats safely - why they are not just small dogs
- Perioperative analgesia - choosing the best options for your patient
- Anaesthetic protocols - are they always the best option for your patient?

Dr Karen Jackson

Senior Lecturer
University of Queensland

- How to get the best out of your in-house clinical pathology tests
- Why the numbers don't always tell the story - case-based clinical pathology discussion

Dr Joanna Hedley

BVM&S, DZooMed (Reptilian), MRCVS
Lecturer
Royal Veterinary College

- Living in captivity - how to recognise and prevent behavioural and health issues in exotic pets
- From the inappetent rabbit to the snuffly rat - a problem based approach to small mammal medicine
- Reptile challenge: The tortoise that won't eat

Cathy Beck

BVSc (Hons), DipVetClinStud, MVS,
GCUT, FACVSc (Radiology)
Associate Professor
University of Melbourne

- What imaging modality should I use when? Does ultrasound always trump radiology?
- Peeking through the shadows - how to make sense of thoracic radiographs
