

Testimonials

Singapore Vet is definitely worth every penny that I spent. I don't think I can put a value on the money that I spent on the experience and everything that I learnt and gained from here.

Dr Shaun Lee, Veterinarian (Selangor, Malaysia)

Well done, Singapore Vet. Each session I attended was pragmatic, and relevant. And great customer service. I will attend again.

Dr Kevin Polglaze, Veterinarian (Singapore)

The variety of content at Singapore Vet covers the majority needs in my workplace. The sessions are interesting and I really enjoyed them. There's also quite a number of leading suppliers showcasing their products and services. I have already booked the ticket for 2020 edition!

Dr Akane Nakagawa, Veterinarian

I came from India for Singapore Vet. This event is absolutely amazing - both the theatres and booths. I can update myself with the market information here. I am going to purchase the 2020 ticket now!

Dr Hans Raj Singh, Practice Partner/Owner, Orione Animal Care Pvt Ltd

Being here at Singapore Vet was a very good opportunity for us. Singapore is one of the best places to be if you want to reach out to a large number of vets in Asia and Australia. Honestly, I think Singapore Vet is one of the top events I have participated in.

Erol Oner, Director, K-Laser AU

We have been very busy. A lot of veterinarians at Singapore Vet are interested in our business. It's not just Singapore-Philippines, Australia, Vietnam, Thailand... it is very international. It is a necessity to get out of the office to meet people and this is an excellent event to do so!

Sean Cooney, Managing Director, Botanical International Ltd

This is a good opportunity to meet most of the vets here in Asia. We have been busy - there are vets from different places, different countries, we are happy with the results. We are coming back next year to meet all the vets.

April Fong, General Manager, MaxiPro

It has been fantastic. We have met a lot of interesting people not just from Singapore, but also other markets, Sri Lanka-India, Malaysia, and even veterinarians from Australia.

Kristy Murphy, Acquisitions Director, VetPartners

Singapore Vet had opened many opportunities for my company. Singapore Vet was a great help for us to expand our market not just in Southeast Asia but also to other territories like Australia, India and Sri Lanka. The event also gave me an opportunity to connect with other professionals and to acquire new friends. The two days event was a success and looking forward for the next year's event. See you all in 2020!

Jeffrey Balindres, Marketing Manager, Beijing Dianotech Science and Technology Co. Ltd.
